

Don't Worry 'Bout A Thing

Words & Music: Vince Jones
Sung by Inga Rumpf (Fifty Fifty)

If this world is driving you to drink
You sit around and wonder
What you should think

Well, I've got some consultations
I give it to you if I might
I don't worry 'bout a thing
'Cause everything will turn all right

You know
This world is one big trouble spot
Some have nothing and some have a lot

Oh, I used to be troubled
But I found me, saw the light
I don't worry 'bout a thing
'Cause everything will turn all right

Don't waste your time trying to be a goalgetter
Things won't get much worse but they might get better
And if there's somebody with the finger on the dynamite
I don't worry 'bout a thing
'Cause everything will turn all right
